

Systematic revision of *Chone* Krøyer, 1856
(Polychaeta: Sabellidae)

María Ana Tovar-Hernández
ECOSUR (Chetumal, Quintana Roo, Mexico)

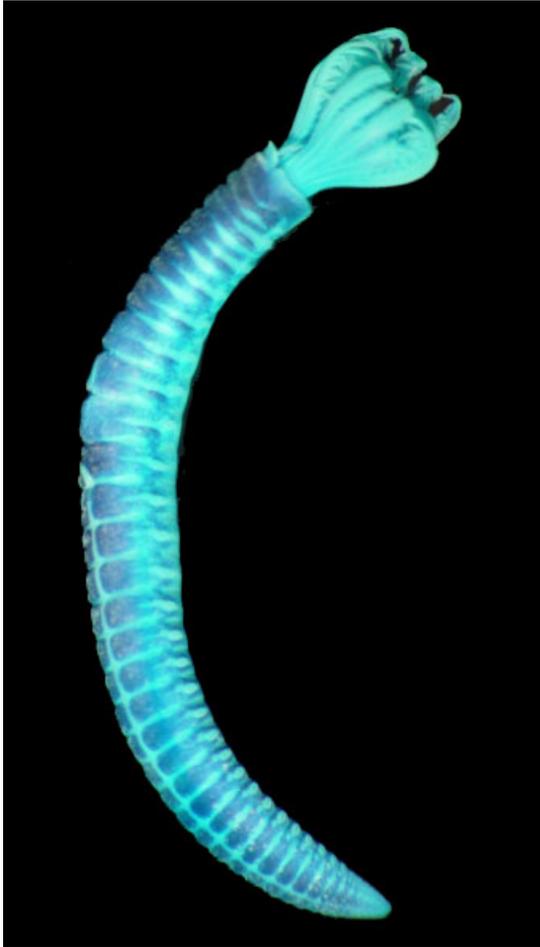

Chone

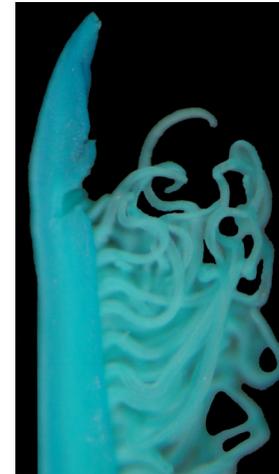

53 species

What is *Chone*?

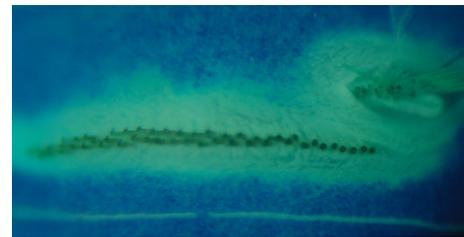

GENERAL MORPHOLOGY

radiolar membrane

radiolar flanges

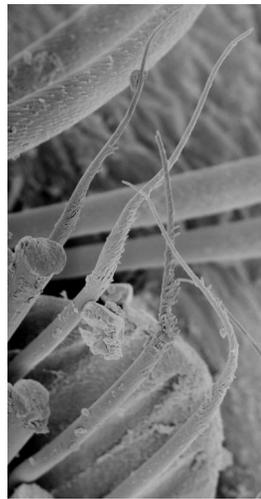

glandular ridge

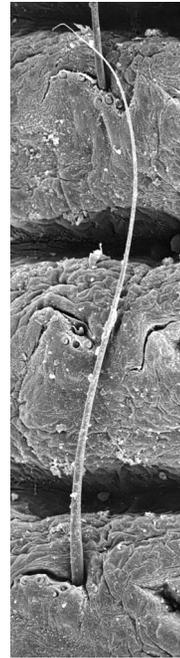

THORAX

paleate chaetae

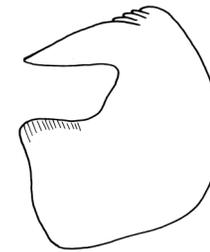

bayonet chaetae

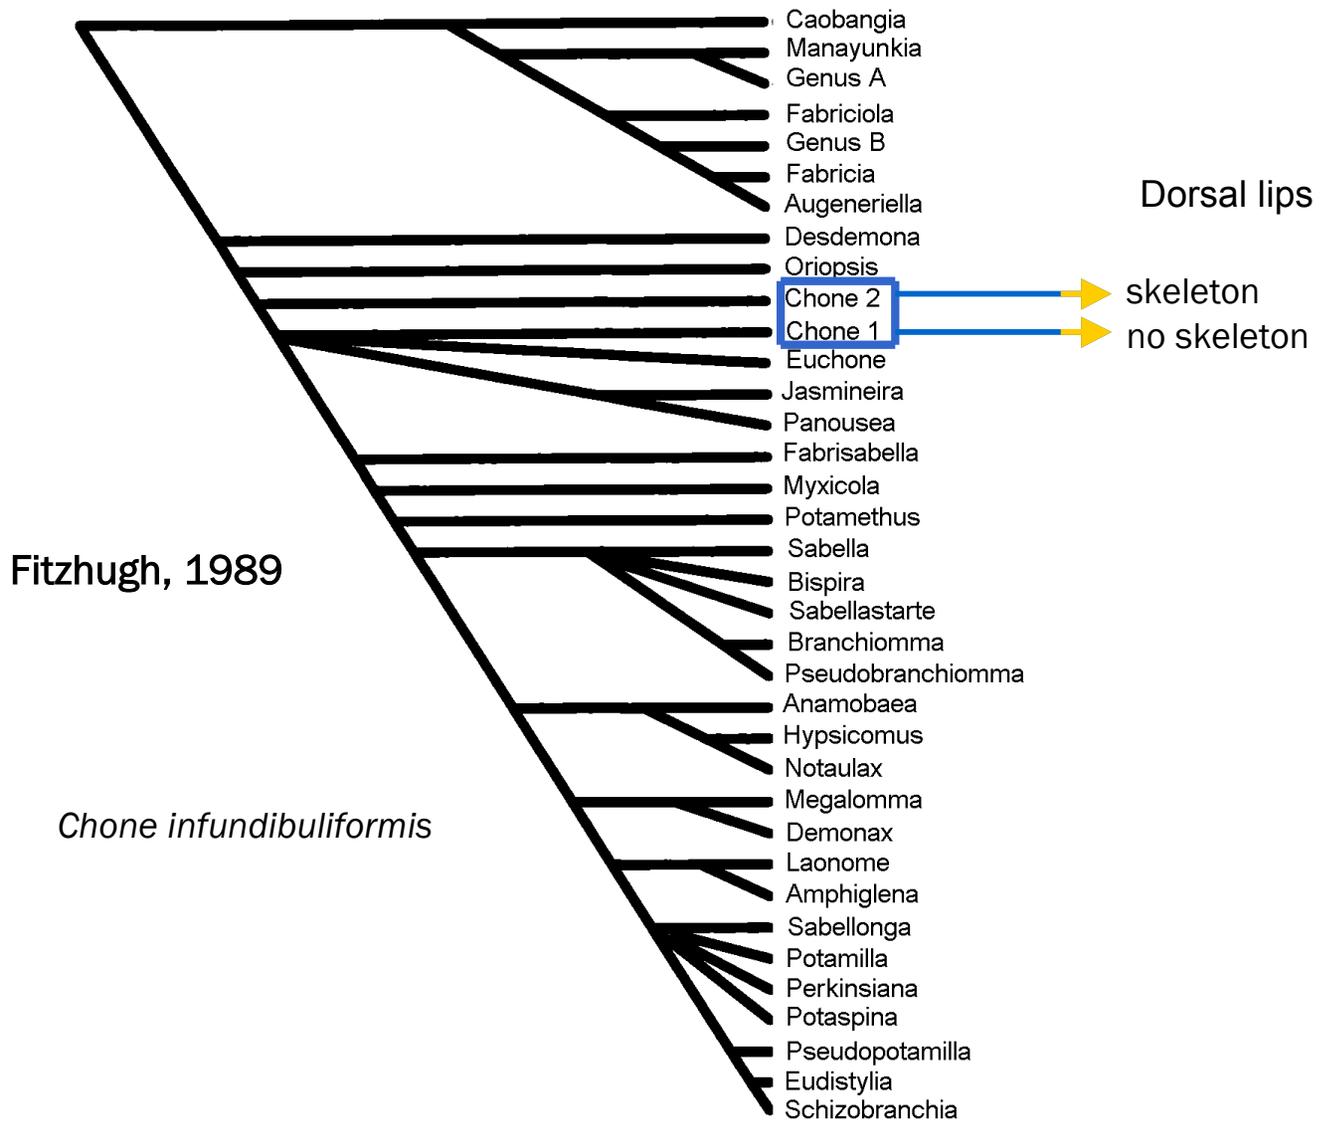

*elongate, narrowly
hooded chaeta*

ABDOMEN

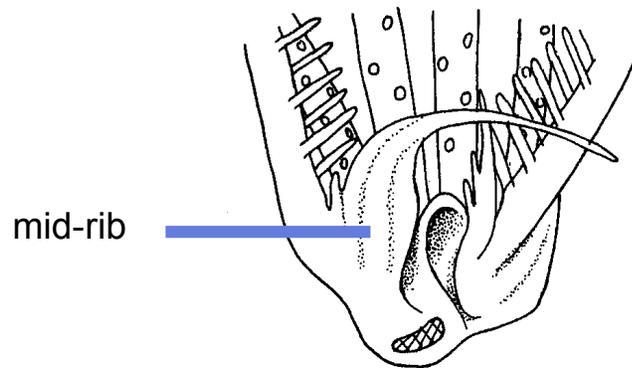

uncinus

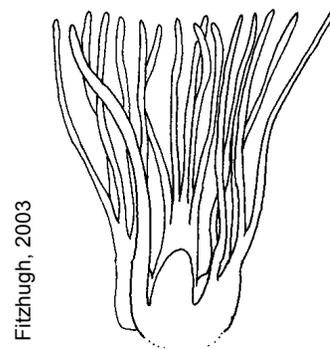

DORSAL LIPS

triangular

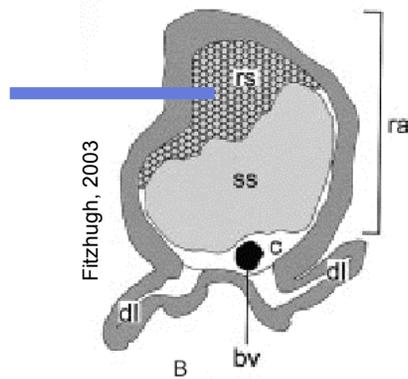

Fitzhugh, 2003

rounded

Fitzhugh, 2003

skeleton

Fitzhugh, 2003

Phylogenetic studies

Rouse & Fitzhugh, 1994

Fitzhugh & Rouse, 1999

Fitzhugh, 2003

Difficulties in the study of Chone

High degree of variation in characters

- About 70% of the descriptions are brief and lack illustrations
- Numerous misidentifications
- Literature and taxonomic keys from other regions of the world
- Inadequate inclusion of exotic names (not necessarily exotic species)
- No revision of the species

My study deals with the worldwide revision of all *Chone* species (type and non-type material) to solve their taxonomy and propose their phylogeny.

PROGRESS

Revision of aprox. 30 species

Definition of *Chone*

Definition of a new genus

Description of new species in both genera

AUTHENTIC *Chone*

(25% of the species described)

<i>C. infundibuliformis</i>	<i>Greenland</i>
<i>C. magna</i>	<i>San Miguel, CA</i>
<i>C. aurantiaca</i>	<i>Puget Sound, WA</i>
<i>C. mollis</i>	<i>Pacific Grove, CA</i>
<i>C. picta</i>	<i>Martha's Vineyard, MASS</i>
<i>C. gracilis</i>	<i>Kodiak Island, Alaska</i>

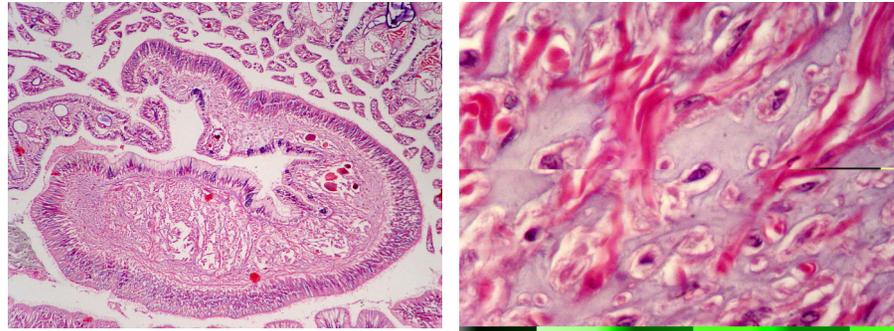

DORSAL LIPS

Externally

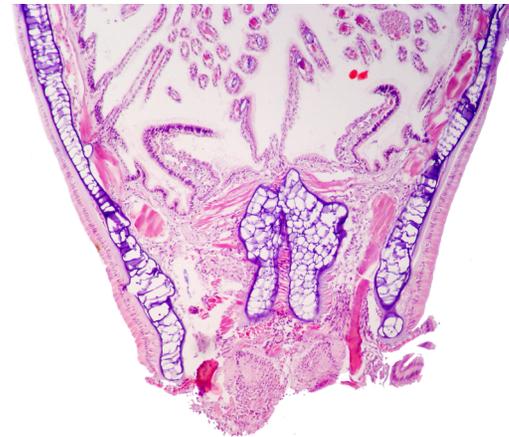

broadly rounded
no mid-rib

Internal construction

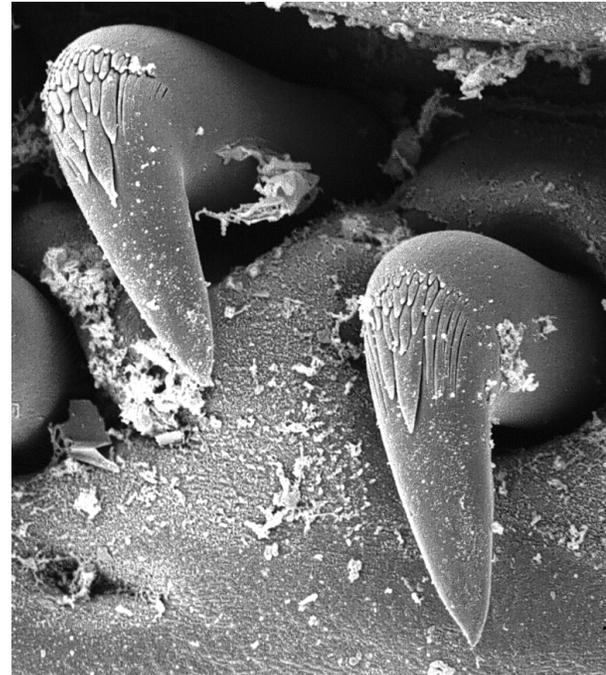

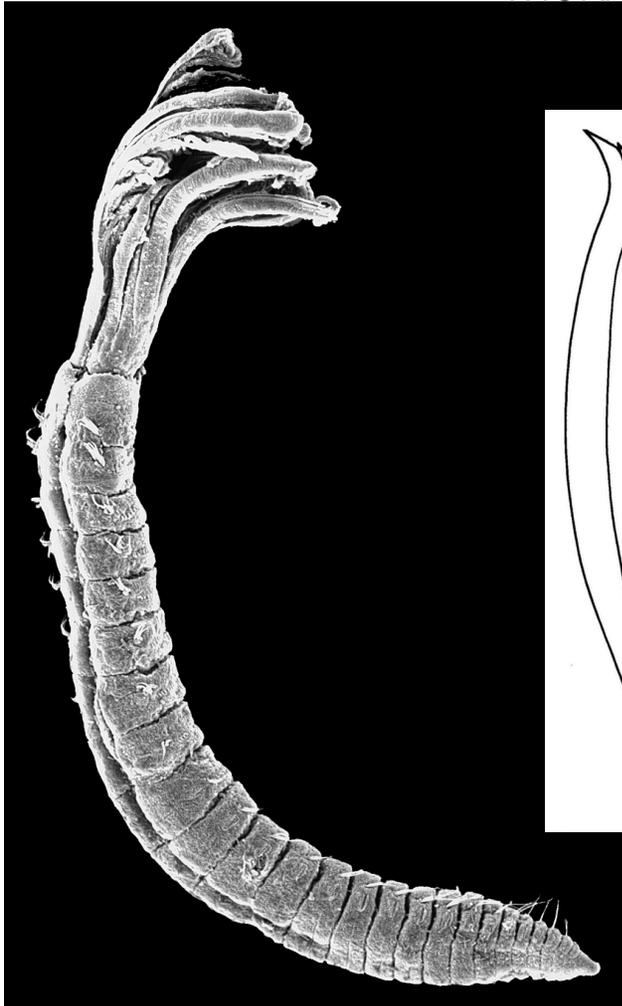

elastic and fibrous cartilage

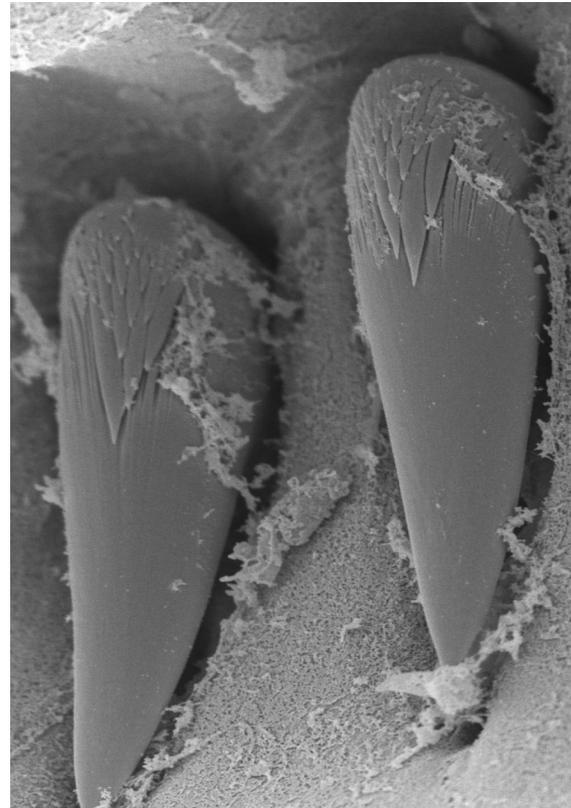

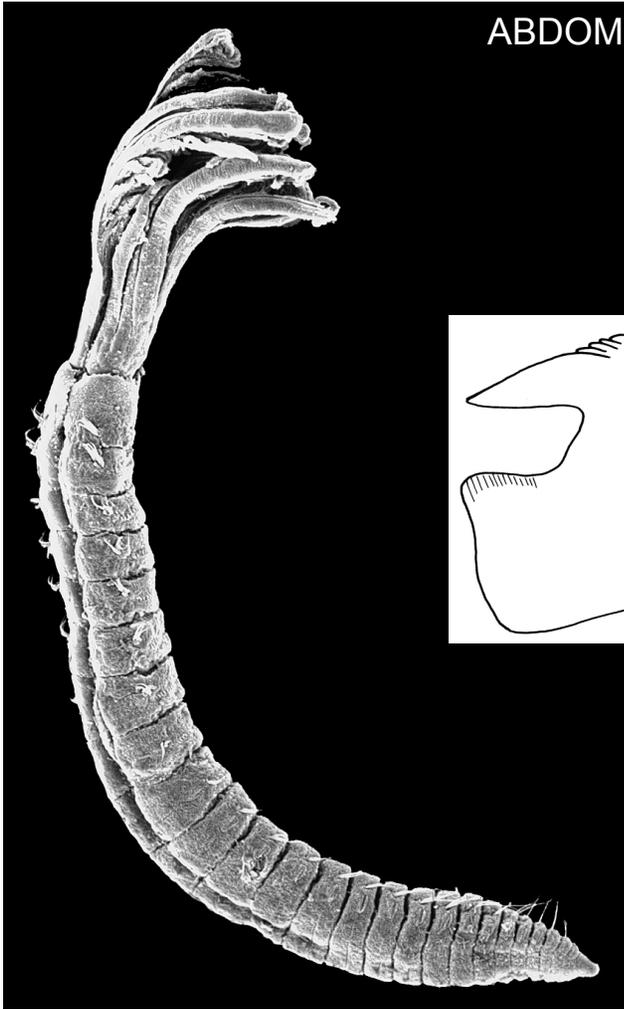

no extension of the skeleton

THORACIC UNCINI

teeth unequal in size
irregular rows of teeth

ABDOMINAL UNCINI

uniform shape
teeth unequal in size
irregular rows of teeth

SPERM MORPHOLOGY

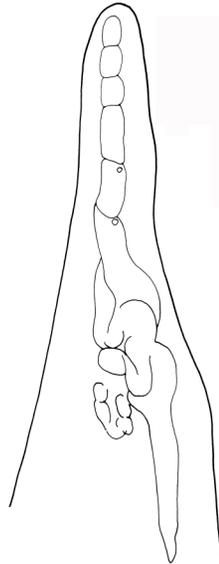

NEW GENUS

<i>C. veleronis</i>	<i>off Seal Beach, CA</i>
<i>C. albocincta</i>	<i>off Seal Beach, CA</i>
<i>C. minuta</i>	<i>Dillon Beach, CA</i>
<i>C. ecaudata</i>	<i>Santa Cruz, CA</i>
<i>C. bimaculata</i>	<i>Puget Sound, WA</i>
<i>C. americana</i>	<i>North Carolina</i>
<i>C. perkinsi</i>	<i>Florida</i>
<i>C. farringtonae</i>	<i>Florida</i>
<i>C. uebelackerae</i>	<i>Florida</i>
<i>C. sp. A Harris</i>	
<i>C. sp. B Harris</i>	
<i>C. sp. C Harris</i>	
<i>C. sp. 1</i>	
<i>C. sp. 2</i>	
<i>C. sp. 3</i>	

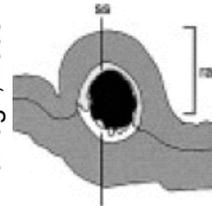

DORSAL LIPS

Triangular
Erect
No mid-rib
